

# Advanced Leak Protection for Construction Projects

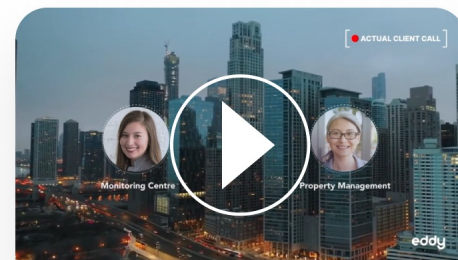

## Keep Your Project Dry, On Time, and Under Budget

Water damage is one of the top risks in construction, leading to costly delays, and insurance claims. Eddy Solutions protects projects with smart wireless sensors, automated valves, and 24/7 monitoring—detecting leaks early and stopping water before it causes major damage.

## Why Contractors Choose Eddy

- **Protect the Jobsite After Hours:** Deliver a dry, damage-free building, enhancing client satisfaction and warranty margins.
- **Prevent Schedule-Crippling Delays:** Stop leaks before they soak drywall, flooring, or elevators.
- **Lower Insurance Costs:** Proven loss-control performance helps brokers negotiate better rates and deductibles.
- **Smooth Handover:** Deliver a dry, damage-free building, enhancing client satisfaction and warranty margins.

Watch How a Building Saved \$1.3M in 60 Seconds with Eddy

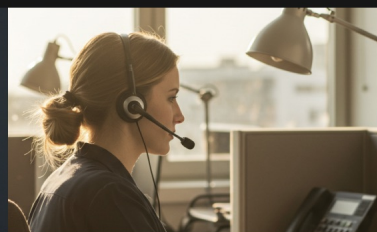

02:00 minutes from a leak alert to taking care of the problem with **Eddy Solutions**

Eddy smart sensors detect a leak

Automated alert with precise location is received

Live operator calls selected contacts to assist

On-site team responds to the incident

# Protection Packages

## Night Watch

Core protection for overnight hours with devices, meters & valves for the fire, domestic & temporary water systems.

- 🕒 Real-time after-hours protection
- 🔒 Protects fire, domestic & temp water lines
- 🔌 Automatic & remote water shutoff
- 📍 Instant leak alerts and live response center
- 📊 Insights into water usage with flow monitoring

## Night Watch Pro

Expanded coverage with 50 smart 3-in-1 sensors, devices, meters & valves.

### Everything in Night Watch, plus:

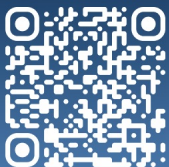

- 🕒 Always-on monitoring of high-risk areas
- 🌡️ Humidity & temperature anomaly detection
- 🔌 Instant alerts for water escape
- 📍 Pinpoint water escape detection with wireless sensors

## Eddy Unlimited

A fully modular platform designed to fit the exact requirements of the project.

### Fully configurable system:

- 👤 Supported by expert solution designers
- 🛡️ Industry-leading comprehensive protection
- 🔗 Adaptable to any project type
- 🏗️ Designed for complex projects

Learn how Eddy's intelligent leak protection can transform your operations.
